PROFESSIONAL SUMMARY

Computer Systems Engineer and Junior Web Developer with experience building responsive user interfaces and web applications using modern technologies. Strong problem-solving skills combined with expertise in Frontend development and REST API integration. Recognized for adaptability, continuous learning, teamwork, and the ability to thrive in dynamic environments.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Backend:** Node.js
- **Databases & APIs:** MongoDB, REST API integration and consumption
- **Tools:** Git, GitHub, Postman, Visual Studio Code
- **Systems & Technical Support:** IT infrastructure, Network administration, Troubleshooting and incident resolution

SOFT SKILLS

- Problem-solving and analytical thinking
- Adaptability and fast learning of new technologies
- Collaboration with technical and non-technical teams
- Process management and results-oriented mindset
- Effective communication and customer expectation management

PROFESSIONAL EXPERIENCE

Freelance Web Developer

Independent Contractor | December 2025 – Present

- Designed, developed, and deployed responsive and interactive web applications using React, JavaScript, HTML, and CSS, integrating REST APIs for dynamic data management.
- Managed the full software development lifecycle, ensuring code quality through version control using Git.
- Developed the *StreamWhere* application, improving interface performance by 15% and enhancing the mobile user experience through optimized data flow management.

IT Support Specialist – Technology Infrastructure Project

Agua Prieta City Government | June 2025 – December 2025

- Provided hardware, software, and network support for over 200 users.
- Executed network restructuring projects and server configurations, ensuring operational stability.
- Reduced user downtime by 8.6% through preventive maintenance and efficient ticket resolution.

Customer Service Representative

Hospitality and Restaurant Industry | February 2023 – November 2024

- Managed customer requests in high-volume, fast-paced environments.
- Resolved customer issues and followed up on requests while maintaining effective communication in both English and Spanish.
- Achieved customer satisfaction ratings above 95% through personalized service and efficient problem-solving.

IT Support Specialist

MEFASA | January 2021 – January 2023

- Provided Level 1 and Level 2 technical support, including preventive and corrective maintenance.
- Managed technology inventory and equipment allocation.
- Streamlined technology asset inventory, reducing losses and improving internal control by 85%.

EDUCATION

TripleTen

Web Development Bootcamp | 2025

Instituto Tecnológico de Agua Prieta

Bachelor's Degree in Computer Systems Engineering | 2016 – 2020
